```
● eli-w@Eli:~$ ./fpa
  Enter program:
  progras dn
  This is the list of error
  program is expected.

● eli-w@Eli:~$ ./fpa
  Enter program:
  program abc; ahs a:
  This is the list of error
  var is expected.

● eli-w@Eli:~$ ./fpa
  Enter program:
  program myProgram; var x: integ;
  This is the list of error
  integer is expected.

● eli-w@Eli:~$ ./fpa
  Enter program:
  program myProgram; var x: integer; begi
  This is the list of error
  begin is expected.

● eli-w@Eli:~$ ./fpa
  Enter program:
  program myProgram; var x: integer; begin pri
  This is the list of error
  print is expected.

eli-w@Eli:~$ ./fpa
Enter program:
program myProgram
This is the list of error
; semicolon is missing.

eli-w@Eli:~$ ./fpa
Enter program:
program myProgram; var
This is the list of error
unknown identifier.

eli-w@Eli:~$ ./fpa
Enter program:
program myProgram; var x
This is the list of error
: colon is missing.
```

```
eli-w@Eli:~$ g++ -o fpa fpa.cpp
eli-w@Eli:~$ ./fpa
Enter program:
program myProgram; var x: integer; begin print("value=", x); end.
Ready to compile
eli-w@Eli:~$ ./fpa
Enter program:
program myProgram; var x: integer; begin print
This is the list of error
( The left parentheses is missing.

eli-w@Eli:~$ ./fpa
Enter program:
program myProgram; var x: integer; begin print("value=", x
This is the list of error
) The right parentheses is missing.

eli-w@Eli:~$ ./fpa
Enter program:
program myProgram; var x: integer; begin print("value=", x); en
This is the list of error
end is expected.

eli-w@Eli:~$ ./fpa
Enter program:
program myProgram; var x: integer; begin print("value=", x); end
This is the list of error
. period is missing.
```
